

ARTISAN CEILING TILES

ARTISAN CEILING TILES

TL-0070

Our ceiling tiles are not only beautiful,
but also environmentally friendly.
Above View tiles are made of organic
materials and are 100% recyclable. Built to
last, our tiles endure the test of time.

TL-0080, TL-0081, TL-0082

Above View Inc.™ is a favorite source for 2' x 2' ornamental plaster ceiling tile. Choose from over 80 unique designs ranging from traditional, geometric, and contemporary to the avant-garde. Tiles can be painted and customized to complement any design concept.

Each Above View ceiling tile is an exquisitely executed design that drops into any standard 15/16 inch T-Bar grid system. We also produce tiles for 9/16 inch grid upon request. Above View plaster and glass fiber tiles outlast inferior fiberboard, plastic or vinyl alternatives, and neither sag nor warp. Our proprietary process produces a high quality product with special attention to maintaining definition of details and integrity of design. All tiles have a UL Class A fire rating and are easily field cut for down lights, vents and sprinklers, without breakage.

We serve both domestic and international markets with our **made in the USA** ceiling tiles. You can find Above View ceiling tiles in hotels, casinos, restaurants, government buildings, stadiums and convention centers around the world. Our manufacturing facility is scalable to produce any size ceiling tile order with a 100% on time shipping history.

ABOVE VIEW FACTS

TILE BREAKDOWN

Above View tiles are:

- Nominally 2' x 2' wide and 1/2" thick
- 97% natural/organic materials
- Composed of gypsum, glass fiber, and other aggregates
- Weigh only 2 to 2.25 pounds per square foot
- Satisfy ASTM Spec. C-635 for L/360, based on hanger wire @ 4' O.C.
- Relief on the tiles varies from 1/4" to 3", depending on design
- Standard Factory Finish is a white latex paint (P & L Z8160, White, Soft Satin)

Due to the use of bulk enhancers, this patented composition offers these additional features:

- No extra stress on the structure from excess weight
- Stability in construction (no thin, weak spots)
- Remains true in size and plane (no warpage)
- No rattling in the grid
- No need for hold-down clips
- Cuts as easily as dry wall for down lights, sprinklers, and vents

CUSTOMIZATION

Custom Ceiling Tile Designs

- Available, designed by Above View or Other

Custom Finishes

- Custom Color(s) available
- Faux finishing available

Custom Cutting And Splicing

- Custom hole cutting for lights, sprinklers and vents available
- Custom cutting for perimeters, both square and curved, available
- Custom splicing for perimeters and partial openings available

FIRE CODES

Above View tiles are non-combustible. These tiles will not sustain combustion or release toxic fumes. The results of the ASTM E. 84 tunnel combustibility test performed on this product are as follows: Class A fire rating, with zero smoke spread, zero flame spread, and zero fuel contribution.

INSTALLATION REQUIREMENTS

The tiles will drop into any standard commercial 15/16" T-Bar suspension grid, consisting of pre-punched roll-formed steel with exposed flange surface. Main runners and cross runners shall be installed to form 2' x 2' square openings. The grid shall be hung flat and level, suspended by 12 gauge pre-straightened steel wire @ 4' O.C. *We also produce tiles for 9/16" grid upon request.*

Material shall be installed in accordance with the following recommendations: White gloves shall be worn by installers while handling **Above View** ceiling tiles. All boxes of tiles shall be kept in a vertical position on the job site with the red arrow pointing up in order to prevent breakage.

PATENTS AND COPYRIGHTS

Each **Above View** ceiling tile is an exquisitely executed, copyrighted design. All tiles are manufactured using a patented composition and a proprietary manufacturing process that consistently provides a unique, high-quality product. A great deal of attention is given to the manufacturing of our tiles in order to maintain definition of details and integrity of surfaces.
